

## **Walk on Requirements for 2011 Breeding Season**

Please be advised that the following requirements are necessary for any mares walking on to Eliza Park stallions in the 2011 season:

1. **Stallion Service Agreements and Mare Applications** must be received by this office before any walk on booking will be taken. Eliza Park reserves the right to refuse to cover any mare if this documentation is not in order.
2. **Documents Of Description/ID Cards** must accompany the mare at each service, or be held at the office of Eliza Park. Additionally, we request that a copy is sent with the signed contract.
3. In keeping with industry standards, Clitoral swabs are required prior to first service and must be free of Pseudomonas and Klebsiella. Results are to be faxed to 03 5428 5295 prior to mare being booked.
4. Please notify the office of early scan results within 15 - 18 days of service, this includes mares whose status changes eg positive at 14 days and negative at 30 days. Results can be phoned 03 5428 5168, faxed 03 5428 5295 or emailed: [dsomers@elizapark.com.au](mailto:dsomers@elizapark.com.au)
5. Final scan results are required at 45 days with a copy of the pregnancy certificate to be faxed or posted to this office.
6. It is the responsibility of the owner/walk on farm to notify Eliza Park of any contact that mares and foals have had with contagious diseases so necessary precautions can be taken.
7. To facilitate everyone's needs, we would greatly appreciate plenty of notice when booking a mare for service. All possible efforts will be made to accommodate your mare at your preferred time, there will be occasions when Eliza Park may request that your mare be delivered prior to service and vetted by our resident veterinarian in order to have the optimum chance of being served. The mare must arrive at the stud for vetting no later than 10am on the requested day.

Please direct all walk on enquiries to David Somers on 0428 440 330 or [dsomers@elizapark.com.au](mailto:dsomers@elizapark.com.au)

Alternatively contact this office on 03 5428 5168.

**Mares will NOT be covered if any of the above criteria is not fulfilled**
